WELCOME MESSAGE

London Pioneer Training & Consulting warmly welcomes you to the International Conference on Hydrocarbon Accounting, Crude Oil Shipping Operations & Measurement, taking place from 8–10 December 2025 in Dubai, United Arab Emirates.

This landmark gathering will bring together government regulators, national and international oil companies (NOCs & IOCs), terminal operators, shipping companies, auditors, technology providers, and policy makers to deliberate on evolving standards, technologies, and governance frameworks shaping the future of hydrocarbon measurement and shipping operations.

As hydrocarbon markets face increasing demands for transparency, efficiency, and accountability, accurate measurement and shipping integrity are more critical than ever for protecting national revenues, ensuring fair trade, and maintaining operational excellence.

We invite you to be part of this powerful platform to exchange knowledge, forge strategic partnerships, and explore cutting-edge solutions with global industry leaders in the vibrant city of Dubai.

CONFERENCE OVERVIEW & RATIONALE

Hydrocarbon accounting and crude oil shipping operations form the backbone of national revenues, energy security, and international trade. Yet, measurement inaccuracies, allocation disputes, and operational inefficiencies continue to pose major technical and governance challenges across the upstream, midstream, and export value chains.

This three-day international conference aims to address these issues comprehensively. By bringing together top-level decision-makers, measurement experts, legal practitioners, auditors, and shipping professionals, the conference will:

- Highlight **global regulatory and technical standards** in measurement and allocation;
- Showcase **emerging technologies** in metering, reconciliation, and digital systems;
- Explore **governance and legal frameworks** for shipping operations and dispute resolution;
- Foster **collaboration between regulators, operators, and service providers**;
- Build a **community of practice** for sustained capacity development.

KEY OBJECTIVES

- Examine evolving standards and best practices in hydrocarbon accounting and measurement.
- Explore innovations in shipping operations, custody transfer systems, and digital technologies.
- Address reconciliation, loss control, and data integrity challenges across the value chain.
- Strengthen collaboration between regulators, operators, shipping entities, and auditors.
- Foster partnerships for capacity building and operational excellence.

THEMATIC FOCUS AREAS

- Strategic Perspectives & Regulatory Frameworks
- Innovations in Metering, Calibration & Allocation
- Crude Oil Shipping Operations, Logistics & Safety
- Reconciliation Challenges: From Wellhead to Export
- Governance & Legal Dimensions of Allocation and Shipping
- Cybersecurity & Digital Measurement Systems
- Global Collaboration & Capacity Building

CONFERENCE PROGRAM AT A GLANCE

DAY 1 – STRATEGIC & REGULATORY PERSPECTIVES

- Opening Ceremony & Welcome Address
- High-Level Keynote: Hydrocarbon Accounting in the Era of Transparency
- Panel 1: Global Standards vs National Realities
- Panel 2: Governance & Legal Dimensions
- Fireside Chat: Industry Leaders' Perspectives
- Networking Reception

DAY 2 – TECHNICAL & OPERATIONAL EXCELLENCE

- Keynote: Technological Evolution in Metering & Custody Transfer
- Panel 3: Innovations in Metering & Allocation
- Panel 4: Crude Oil Shipping Operations: Logistics, Loss Control & Safety
- Panel 5: Reconciliation Challenges: From Wellhead to Export
- Interactive Simulation: Custody Transfer Dispute Resolution
- Technology Exhibition & B2B Meetings

DAY 3 – INNOVATION, FUTURE TRENDS & COLLABORATION

- Keynote: Future-Proofing Measurement Systems – AI, IOT & Digitalization
- Panel 6: Data Integrity & Cybersecurity
- Panel 7: Global Collaboration & Capacity Building
- Roundtable: Policy Makers & Industry Leaders Dialogue
- Closing Plenary & Conference Communiqué

SPEAKERS & PANELISTS

The conference will host **world-class experts, policymakers, and industry leaders**, including:

- Senior Government Ministers & Regulators
- CEOs & Executives from National and International Oil Companies
- Technical Experts from API, OIML, ISO, and Measurement Standards Bodies
- Global Technology Providers (Emerson, ABB, KROHNE, Honeywell, etc.)
- Legal & Arbitration Specialists from Leading International Firms
- Academics & Researchers from Top Institutions

SPONSORSHIP & EXHIBITION OPPORTUNITIES

Position your brand at the forefront of one of the most strategic gatherings in the hydrocarbon sector. Sponsorship packages are designed to maximize visibility, facilitate networking, and highlight thought leadership throughout the event.

Tier	Investment	Benefits
Bronze	\$5,000	Logo on brochure & website, 1 delegate pass, exhibition space (shared)
Silver	\$15,000	Enhanced branding, 2 delegate passes, exhibition booth, logo on all event materials
Gold	\$25,000	Prominent branding, 4 delegate passes, exhibition booth, inclusion in media coverage, panel speaking slot
Diamond	\$50,000	Main sponsor status, top-tier branding on all materials, exclusive speaking slot in opening ceremony, 8 delegate passes, prime exhibition location, full media coverage

PARTNERS & SPONSORS

We are proud to acknowledge the exceptional support and collaboration of our esteemed partners and sponsors, whose contributions are instrumental in making this international conference a success.

Their commitment to innovation, excellence, and industry advancement reflects the shared vision of strengthening operational standards and collaboration across the hydrocarbon value chain.

Below are the organizations that stand with us as strategic partners, knowledge contributors, and leading sponsors, helping to shape impactful discussions and meaningful outcomes.

Strategic & Knowledge Partner

Diamond Sponsor

Gold Sponsor

Silver Sponsor

WHY SPONSOR OR EXHIBIT

- Showcase your technologies and services to a global audience of decision-makers.
- Position your organization as a thought leader in hydrocarbon measurement and shipping operations.
- Network strategically with regulators, NOCs, IOCs, and service companies.
- Gain premium visibility across all marketing, digital, and on-site platforms.

VENUE & LOGISTICS

 Dubai, United Arab Emirates

The conference will take place in Dubai – an international energy and logistics hub with world-class infrastructure, connectivity, and hospitality. Delegates will enjoy easy international access, luxury accommodation, and a dynamic environment for business networking.

“Join us in Dubai for a transformative global dialogue on hydrocarbon measurement, shipping operations, and governance.”
